Provision of infrastructure in a part of the investment zone in Bobolice, covered by the Słupska Special Economic Zone - stage I

Gmina Bobolice

Criterion:

development of the investment zones

Commune of Bobolice: The implementation of this project will enable land development of a part of the Investment Zone in Bobolice of 3.5 hectares and location on the land covered by the support of a minimum of two companies from wood, agricultural and food processing industries (including the production of organic food), while not restricting the location in the Zone of those investments that are related to the specific needs on the part of other investors. The new lands will be provided with a water supply and sewage disposal system, a rain water drain system and a power system. An internal communication infrastructure will be built including a new access road, pavements and illumination. The objective of this action is to increase the region's investment attractiveness, to guarantee an economic growth and increased employment in the region, to attract new companies, to promote entrepreneurship among the local residents and to create new and permanent jobs. The investment is to be completed by 2020.

Total investment costs: PLN 3 500 000

Co-financing amount: PLN 2 081 353.82

Co-financing rate: 73.2183%
